

Do you want to make a difference in a growing economy?

Are you the go-getter who wants to make a strong impact on global business?

Being the highest-ranking tech company in the Fortune 500 is only possible because IBM hires the best possible people over the past 100 years.

This is your chance to be part of the phenomenal growth that IBM is experiencing in key growth markets.

As part of India Software Lab, **India Systems & Technology Lab (ISTL)** has been supporting key STG programs in both Technology Development and System Software areas. Working closely with global lab teams, ISTL Systems SW team develops products and technologies across entire portfolio including Firmware Development, AIX, Linux, Platform Management and High Performance Computing. The lab teams work on some of the core development areas such as AIX Base Operating System, PowerHA, PowerVISE, Flexible Service Processor Firmware, Hardware Management Console and Systems Director Management Console, Platform & I/O Simulation, Linux Kernel Development, Energy Management and software RAS.

We are looking for experienced professionals in the following Domain areas:

- ✓ Device Drivers
- ✓ Kernel programming
- ✓ Virtualization
- ✓ High Availability
- ✓ System Security
- ✓ Networking
- ✓ Hypervisor
- ✓ Firmware
- ✓ Processor Architecture

Roles in these areas comprise a spectrum of roles and job levels including technical architects, subject matter experts, technical leads and engineering managers that will be an integral part of the next generation technology development.

Qualifications required:

- Candidates with global exposure are preferred
- Strong technical background in their respective area
- Leadership in guiding and/or mentoring junior engineers
- Team oriented working style
- Excellent communication skills in a global environment

Degrees Needed: MS, MTech, PhD or Dual Degrees

Majors Considered: Computer Engineering, Computer Science or related fields

Location: Bangalore and Hyderabad, India
