

What do you do as an engineer/scientist?

I have held a variety of positions from logic design / verification engineer to manager of a department of engineers.

How do you use your technical training and/or degree today? How has it helped you?

I use my degree to help me analyze and solve problems. There are many times that I encounter a situation that I'm not familiar with and my training has provided me with the analytical skills to determine a solution.

What do you find most satisfying about your work?

I find it satisfying to work with a team of people to solve challenging business problems which satisfy our customers needs.
