

What do you do as an engineer/scientist?

Today, I help customers re-architect and consolidate their technology environment, processes and organizations to reduce costs, increase productivity, and provide greater service to their customers.

How do you use your technical training and/or degree today? How has it helped you?

My technical degree helped lay the foundation for my understanding different areas of technology. It has provided me the ability to look at environments in many different ways.

What do you find most satisfying about your work?

Helping others improve their technology environments so they can provide better service to their customers -- as well as having the opportunity to work on many different assignments.
