ARMONK, N.Y., January 21, 2014 . . . IBM (NYSE: [IBM](#)) today announced fourth-quarter 2013 diluted earnings of \$5.73 per share, compared with diluted earnings of \$5.13 per share in the fourth quarter of 2012, an increase of 12 percent. Operating

(non-GAAP) diluted earnings were \$6.13 per share, compared with operating diluted earnings of \$5.39 per share in the fourth quarter of 2012, an increase of 14 percent.

Fourth-quarter net income, which includes benefits from tax audit settlements, was \$6.2 billion compared with \$5.8 billion in the fourth quarter of 2012, an increase of 6 percent. Operating (non-GAAP) net income was \$6.6 billion compared with \$6.1 billion in the fourth quarter of 2012, an increase of 8 percent.

Total revenues for the fourth quarter of 2013 of \$27.7 billion decreased 5 percent (down 3 percent adjusting for currency) from the fourth quarter of 2012.

"We continued to drive strong results across much of our portfolio and again grew earnings per share in 2013. While we made solid progress in businesses that are powering our future, in view of the company's overall full year results, my senior team and I have recommended that we forgo our personal annual incentive payments for 2013," said Ginni Rometty, IBM chairman, president and chief executive officer.

"As we enter 2014, we will continue to transform our business and invest aggressively in the areas that will drive growth and higher value. We remain on track toward our 2015 roadmap for operating EPS of at least \$20, a step in our long-term strategy of industry leadership and continuous transformation."

Fourth-Quarter GAAP - Operating (non-GAAP) Reconciliation

Fourth-quarter operating (non-GAAP) diluted earnings exclude \$0.40 per share of net charges: \$0.25 per share for the amortization of purchased intangible assets and other acquisition-related charges, and \$0.15 per share for retirement-related items driven by changes to plan assets and liabilities primarily related to market performance.

Full-Year 2014 Expectation

IBM said that it expects to deliver full-year 2014 GAAP earnings per share of at least \$17.00; and operating (non-GAAP) earnings per share of at least \$18.00. The 2014 operating (non-GAAP) earnings exclude \$1.00 per share of charges for amortization of purchased intangible assets, other acquisition-related charges, and retirement-related items driven by changes to plan assets and liabilities primarily related to market performance.

Forward-Looking and Cautionary Statements

Except for the historical information and discussions contained herein, statements contained in this release may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on the company's current assumptions regarding future business and financial performance. These statements involve a number of risks, uncertainties and other factors that could cause actual results to differ materially, including the following: a downturn in economic environment and corporate IT spending budgets; the company's failure to meet growth and productivity objectives; a failure of the company's innovation initiatives; risks from investing in growth opportunities; failure of the company's intellectual property portfolio to prevent competitive offerings and the failure of the company to obtain necessary licenses; cybersecurity and data privacy considerations; fluctuations in financial results and purchases, impact of local legal, economic, political and health conditions; adverse effects from environmental matters, tax matters and the company's pension plans; ineffective internal controls; the company's use of accounting estimates; the company's ability to attract and retain key personnel and its reliance on critical skills; impacts of relationships with critical suppliers and business with government clients; currency fluctuations and customer financing risks; impact of changes in market liquidity conditions and customer credit risk on receivables; reliance on third party distribution channels; the company's ability to successfully manage acquisitions and alliances; risk factors related to IBM securities; and other risks, uncertainties and factors discussed in the company's Form 10-Qs, Form 10-K and in the company's other filings with the U.S. Securities and Exchange Commission (SEC) or in materials incorporated therein by reference. Any forward-looking statement in this release speaks only as of the date on which it is made. The company assumes no obligation to update or revise any forward-looking statements.

Presentation of Information in this Press Release

In an effort to provide investors with additional information regarding the company's results as determined by generally accepted accounting principles (GAAP), the company has also disclosed in this press release the following non-GAAP information which management believes provides useful information to investors:

IBM results and expectations -

- presenting operating (non-GAAP) earnings per share amounts and related income statement items;
- presenting non-global financing debt-to-capitalization ratio;
- adjusting for free cash flow;
- adjusting for currency (i.e., at constant currency);
- adjusting for workforce rebalancing.

The rationale for management's use of non-GAAP measures is included as part of the supplementary materials presented within the fourth-quarter earnings materials. These materials are available on the IBM investor relations Web site at www.ibm.com/investor and are being included in Attachment II ("Non-GAAP Supplementary

Materials") to the Form 8-K that includes this press release and is being submitted today to the SEC.
