IBM Terms of Use – SaaS Specific Offering Terms for Federal

IBM Bluworks Live for US Federal

The Terms of Use ("ToU") is composed of this IBM Terms of Use - SaaS Specific Offering Terms ("SaaS Specific Offering Terms") and the IBM Terms of Use - General Terms For Federal ("General Terms"). The SaaS Terms of Use are also available at the following URL http://www-03.ibm.com/software/sla/sladb.nsf/sla/usg. Customers placing a GSA Order with IBM, the complete agreement between the parties consist of terms and conditions as set forth in the current IBM GSA IT Schedule Contract, GS-35F-4984H, including the IBM Passport Advantage Agreement (Appendix S), the SaaS Specific Offering Terms for Federal and the IBM Terms of Use – General Terms for Federal (Chapter 9). Should a conflict arise among Appendix S, the General Terms and these SaaS Specific Offering Terms, the conflict shall be resolved in the following order of precedence: these SaaS Specific Offering Terms, the General Terms and the Appendix S.

Customers placing a non-GSA Order (Open Market), except for those provisions solely specific to GSA Orders, terms and conditions equivalent to those of the current IBM GSA IT Schedule Contract shall apply. The complete agreement between the parties consist of terms and conditions equivalent to those set forth in the current IBM GSA IT Schedule Contract, GS-35F-4984H, including the IBM Passport Advantage Agreement (Appendix S), the SaaS Specific Offering Terms for Federal and the IBM Terms of Use – General Terms for Federal (Chapter 9). Should a conflict arise among Appendix S, the General Terms and these SaaS Specific Offering Terms, the conflict shall be resolved in the following order of precedence: these SaaS Specific Offering Terms, the General Terms and the Appendix S. The incorporation by reference of equivalent IBM GSA IT Schedule Contract terms and conditions shall not be considered a transaction under the Schedule Contract.

Customer may use the IBM SaaS only if Customer first accepts the Terms of Use. By issuing a Purchase Order or other ordering document to IBM for the SaaS offering, Customer agrees to the terms and conditions set forth herein.

1. IBM SaaS
   The following IBM SaaS offerings are covered by these SaaS Specific Offering Terms:
   - IBM Bluworks Live Editor for US Federal
   - IBM Bluworks Live Contributor for US Federal
   - IBM Bluworks Live Viewer for US Federal

2. Charge Metrics
   The IBM SaaS is sold under one of the following charge metric(s) as specified in the Transaction Document:
   a. Authorized User is a unit of measure by which the IBM SaaS can be obtained. Customer must obtain separate, dedicated entitlements for each unique Authorized User given access to the IBM SaaS in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means. Sufficient entitlements must be obtained to cover the number of Authorized Users given access to the IBM SaaS during the measurement period specified in Customer's Proof of Entitlement (PoE) or Transaction Document.

3. Charges and Billing
   The amount payable for the IBM SaaS is specified in a Transaction Document, IBM proposal or IBM quote.

3.1 Partial Month Charges
   The partial month charge is a pro-rated daily rate that will be charged to Customer. The partial month charges are calculated based on the remaining days of the partial month starting on the date Customer is notified by IBM that their access to the IBM SaaS is available.

4. IBM SaaS Subscription Period Renewal Options
   Customer’s PoE will set forth whether the IBM SaaS will renew at the end of the Subscription Period, by designating one of the following:
4.1 Renewal Required
The IBM SaaS will terminate at the end of the Subscription Period and Customer’s access to the IBM SaaS will be removed. To continue to use the IBM SaaS beyond the end date, Customer will need to place an order with Customer’s IBM sales representative or IBM Business Partner to purchase a new Subscription Period.

5. Technical Support
During the Subscription Period and after IBM notifies Customer that access to the IBM SaaS is available, technical support for the IBM SaaS is provided via email, online forums, and an online problem reporting system. Any enhancements, updates, and other materials provided by IBM as part of any such technical support are considered to be part of the IBM SaaS and therefore governed by this ToU. Technical support is included with the IBM SaaS and is not available as a separate offering.

More information about hours of availability, email addresses, online problem reporting systems, and other technical support communication vehicles and processes are described in the IBM Software as a Service Support Handbook.

6. IBM SaaS Offering Additional Terms

6.1 Cookies
Customer is aware and agrees that IBM may, as part of the normal operation and support of the IBM SaaS, collect personal information from Customer (your employees and contractors) related to the use of the IBM SaaS, through tracking and other technologies. IBM does so to gather usage statistics and information about effectiveness of our IBM SaaS for the purpose of improving user experience and/or tailoring interactions with Customer. Customer confirms that it will obtain or have obtained consent to allow IBM to process the collected personal information for the above purpose within IBM, other IBM companies and their subcontractors, wherever we and our subcontractors do business, in compliance with applicable law. IBM will comply with requests from Customer’s employees and contractors to access, update, correct or delete their collected personal information.

6.2 Derived Benefit Locations
Where applicable, taxes are based upon the location(s) Customer identifies as receiving benefit of the IBM SaaS. IBM will apply taxes based upon the business address listed when ordering an IBM SaaS as the primary benefit location unless Customer provides additional information to IBM. Customer is responsible for keeping such information current and providing any changes to IBM.
6.3 **IBM SaaS Quality Improvements**

Data may be copied to non-production services to enable IBM to test and improve the quality of IBM’s offerings. Also, in compliance with current laws and regulations, anonymous, aggregate data related to your use of the IBM SaaS may be compiled by IBM and used to prepare advisory reports showing what we found.

6.4 **Authorized User Entitlements**

Editor and Contributor entitlements are sold individually. Viewer entitlements may be obtained in packs of 500. Customer must designate at least one Editor or Contributor entitlement as the IBM SaaS Administrator.

6.5 **Adding New Users**

The IBM SaaS Administrator(s) have administrative privileges that include the ability monitor the amount and type of user entitlements acquired and the total number of entitlements deployed.

Administrators and Editors can invite new users to access the IBM SaaS. Each user designated as an Editor, Contributor or Viewer will account for one purchased entitlement of that user type. When a user no longer requires access to the IBM SaaS, the specific user type entitlement may be permanently assigned to another user requiring the same user access type. If there is no new user requiring access, the entitlement may be assigned at a future date when needed. When all entitlements for a given user type have been assigned, Customer must acquire additional entitlements for the applicable user type in order to grant access to a new user. The IBM SaaS tracks the number of entitlements for each user type and will not allow the IBM SaaS to exceed the number of entitlements obtained.
IBM Blueworks Live

IBM Blueworks Live is a software-as-a-service solution that provides a collaborative environment for capturing, documenting, modeling, and optimizing business processes and decisions. The IBM SaaS is sold based on user access types as follows:

1.1 Editor

The Editor user has access to all product features and functions. Editor users are able to collaboratively create, diagram and make changes to business process and decision models.

1.2 Contributor

The Contributor user is able to see, comment on and add documentation to business process and decision models. The Contributor cannot create or edit business process models or business decision models.

1.3 Viewer

The Viewer user can view shared business process models. Viewers cannot participate in, comment on, or contribute to work and do not have access to spaces, blogs or activity streams.
Appendix B

IBM provides the following availability service level agreement (“SLA”) for the IBM SaaS and is applicable if specified in Customer’s Proof of Entitlement (PoE) or Transaction Document:

The version of this SLA that is current at the commencement or renewal of the term of Customer’s subscription will apply. Customer understands that the SLA does not constitute a warranty to you.

1. Definitions
   a. "Availability Credit" means the remedy IBM will provide for a validated Claim. The Availability Credit will be applied in the form of a credit or discount against a future invoice of subscription charges for the IBM SaaS.
   b. “Claim” means a claim Customer submits to IBM that an SLA has not been met during a Contracted Month.
   c. "Contracted Month" means each full month during the term of the IBM SaaS measured from 12:00 a.m. Eastern US time on the first day of the month through 11:59 p.m. Eastern US time on the last day of the month.
   d. “Downtime” means a period of time during which production system processing for the IBM SaaS has stopped and Customer’s users are unable to use all aspects of the IBM SaaS for which they have permissions. Downtime does not include the period of time when the IBM SaaS is not available because of:
      ● A scheduled or announced maintenance outage;
      ● Events or causes beyond IBM’s control (e.g., natural disaster, internet outages, emergency maintenance, etc.);
      ● Problems with Customer’s or a third party’s applications, equipment, or data;
      ● Customer’s failure to adhere to required system configurations and supported platforms for accessing the IBM SaaS; or
      ● IBM’s compliance with any designs, specifications, or instructions provided to IBM by Customer or a third party on Customer’s behalf.
   e. “Event” means a circumstance or set of circumstances taken together, resulting in a failure to meet an SLA.

2. Availability Credits
   a. To submit a Claim, Customer must log a Severity 1 support ticket for each Event with the IBM technical support help desk, within 24 hours of Customer first becoming aware that the Event has impacted Customer’s use of the IBM SaaS. Customer must provide all necessary information about the Event and reasonably assist IBM with the diagnosis and resolution of the Event.
   b. Customer must submit the Claim for an Availability Credit no later than three (3) business days after the end of the Contracted Month in which the Claim arose.
   c. Availability Credits are based on the duration of the Downtime measured from the time Customer reports that Customer was first impacted by the Downtime. For each valid Claim, IBM will apply the highest applicable Availability Credit based on the achieved SLA during each Contracted Month, as shown in the table below. IBM will not be liable for multiple Availability Credits for the same Event in the same Contracted Month.
   d. For Bundled Service (individual IBM SaaS packaged and sold together for a single combined price), the Availability Credit will be calculated based on the single combined monthly price for the Bundled Service, and not the monthly subscription fee for each individual IBM SaaS. Customer may only submit Claims relating to one individual IBM SaaS in a bundle in any Contracted Month, and IBM will not be liable for Availability Credits with respect to more than one IBM SaaS in a bundle in any Contracted Month.
e. If Customer purchased the IBM SaaS from a valid IBM reseller in a remarketing transaction in which IBM maintains primary responsibility for fulfilling the IBM SaaS and SLA commitments, the Availability Credit will be based on the then-current Relationship Suggested Value Price (RSVP) for the IBM SaaS in effect for the Contracted Month which is the subject of a Claim, discounted at a rate of 50%.

f. The total Availability Credits awarded with respect to any Contracted Month shall not, under any circumstance, exceed ten percent (10%) of one twelfth (1/12th) of the annual charge paid by Customer to IBM for the IBM SaaS.

3. Service Levels

Availability of the IBM SaaS during a Contracted Month is as follows:

<table>
<thead>
<tr>
<th>Availability during a Contracted Month</th>
<th>Availability Credit (% of Monthly Subscription Fee for Contracted Month which is the subject of a Claim)</th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt; 99.0%</td>
<td>2%</td>
</tr>
<tr>
<td>&lt; 97.0%</td>
<td>5%</td>
</tr>
</tbody>
</table>
| < 95.0%                               | 10%                                                                

Availability, expressed as a percentage, is calculated as: (a) the total number of minutes in a Contracted Month, minus (b) the total number of minutes of Downtime in a Contracted Month, divided by (c) the total number of minutes in a Contracted Month.

Example: 50 minutes total Downtime during Contracted Month

\[
\frac{43,200 \text{ total minutes} - 50 \text{ minutes Downtime}}{43,200 \text{ total minutes}} = 2\% \text{ Availability Credit for 98.8\% Achieved Service Level during the Contracted Month}
\]

4. Exclusions

This SLA is made available only to IBM Customers. This SLA does not apply to the following:

- Beta and trial services.
- Non-production environments, including but not limited to, test, disaster recovery, quality assurance, or development.
- Claims made by Customer’s users, guests, participants and permitted invitees of the IBM SaaS.
