IBM Cloud Services Agreement

IBM Cloud Service Description: IBM DataWorks

Except as noted below the terms of the IBM Bluemix Service Description or Terms of Use, as applicable, apply.

The following is the Service Description for the Cloud Service:

1. **Cloud Service Description**
   IBM DataWorks™ is a Cloud based service that provides a set of simple and uniform REST APIs to load data, cleanse US postal addresses, and classify data.

2. **Entitlement and Billing Information**
   2.1 **Charge Metrics**
   There is no charge for the use of this Cloud Service.

3. **Additional Terms and Conditions**
   United States Postal Service (USPS) is a third-party beneficiary of the Cloud Service. Users of the Cloud Service are permitted to only confirm the validity of mailing addresses within the United States.

   Users of the Cloud Service are not permitted to (1) artificially compile a list of addresses or generate address records not already in Licensees possession; and/or (2) create or maintain any derivative products that incorporate data obtained from use of the Cloud Service in whole or in part except as approved by the USPS. No proprietary address lists(s) or service products or other system of records that contain(s) address attributes updated through the Cloud Service may be rented, sold, distributed or otherwise provided in whole or in part to any third party for any purpose containing address attributes derived from the Cloud Service.

   Users of the Cloud Service acknowledge that USPS owns the confidential and proprietary database concerning the conversion of existing addresses to their new or updated or replacement addresses or the like.

4. **Safe Harbor Framework**
   The Cloud Service does not comply with the US-EU and US-Swiss Safe Harbor Frameworks.
