

IBM Internet of Things for Electronics

Except as noted below the terms of the IBM Bluemix Service Description or Terms of Use, as applicable, apply.

1. **Cloud Service Description**

IoT for Electronics enables consumer appliance and electronics manufacturers to address industry specific needs while delivering an end user experience which includes or supports the following features:

- Appliance claiming, registration, end user authentication;
- Device/end user ID pairing;
- Preferences and alerts.

2. **Entitlement and Billing Information**

2.1 **Charge Metrics**

The Cloud Service is offered in accordance with the following charge metric(s):

- **Item** - An Item is an occurrence of a specific item that is processed by, managed by, or related to the use of the Cloud Service, as described in the Cloud Service description. Client will be charged for the number of Items, during the billing period.

For this Cloud Service, an Item is defined as the claiming and/or pairing of an end user profile with a unique device.

3. **Safe Harbor Framework**

The Cloud Service does not comply with the US-EU and US-Swiss Safe Harbor Frameworks
