

## Service Description

---

### IBM Decision Composer

This Service Description describes the Cloud Service. The applicable order documents provide pricing and additional details about Client's order.

#### 1. Cloud Service

##### 1.1 Offerings

The Client may select from the following available offerings

##### 1.1.1 IBM Decision Composer

IBM Decision Composer is a no charge service that enables business users and developers to learn how to design business logic that needs to be separate from application logic. This service provides the tooling to author business rules and the environment to execute these rules from external applications. The number of monthly rule executions is limited to one thousand.

#### 2. Data Processing and Protection Data Sheets

IBM's Data Processing Addendum at <http://ibm.com/dpa> (DPA) and the Data Processing and Protection Data Sheet(s) (referred to as data sheet(s) or DPA Exhibit(s)) in the links below provide additional data protection information for the Cloud Services and its options regarding the types of Content that may be processed, the processing activities involved, the data protection features, and specifics on retention and return of Content. The DPA applies if and to the extent the European General Data Protection Regulation (EU/2016/679) (GDPR) applies to personal data contained in Content.

#### 3. Service Levels and Technical Support

##### 3.1 Service Level Agreement

This Cloud Service does not provide an availability SLA.

##### 3.2 Technical Support

Technical support is not applicable for this Cloud Service.

#### 4. Charges

There are no charges for use of the Cloud Service. If any authority imposes a custom, duty, tax (including withholding tax), levy or fee for the import or export, transfer, access or use of the Cloud Service or third party service, then Client is responsible for paying any such amount imposed.

#### 5. Additional Terms

For Cloud Service Agreements (or equivalent base cloud agreements) executed prior to January 1, 2019, the terms available at <https://www.ibm.com/acs> apply.

#### 6. Overriding Terms

##### 6.1 Warranties

The following prevails over anything to the contrary in the Warranties section of the base Cloud Service terms between the parties: This Cloud Service is provided without any warranty of any kind.

##### 6.2 Modifications to the Cloud Service

The following prevails over anything to the contrary in the Changes section of the base Cloud Service terms between the parties: Client agrees that IBM may add, modify, limit, or discontinue features of the Cloud Service, or the Cloud Service in its entirety, and may add, modify or discontinue any of the terms and conditions under which the Cloud Service is offered, at any time without notice.
