Oracle Database 18c available running AIX for IBM Power!

This Flash describes the availability of the On-Premises Oracle® Database Release 18c running AIX on Power Servers.

On November 19, 2018, Oracle made available for download of its most current on-premise Database version, 18c. Oracle Database 18c is available running AIX 6.1, 7.1 and 7.2 on IBM Power servers. This announcement underscores Oracle's continuing commitment to deliver new versions of Oracle Database running AIX on IBM Power servers.

Oracle Database 18c (18.4) Enterprise Edition is immediately available for customers to download from Oracle's website at: <https://www.oracle.com/technetwork/database/enterprise-edition/downloads/index.html>

The table below summarizes the availability of Oracle database 18c (18.4) running AIX for these platforms.

Operating System	Version	Service Level
AIX	6	1
AIX	7	1
AIX	7	2
