IBM Operational Decision Manager (ODM) for z/OS V8.7
Smart Seminar

WebSphere software
IBM ODM for z/OS v8.7 Smart Seminar

The zGrowth team and WebSphere on z Technical Sales is offering a valuable "no-charge" one day seminar focusing on IBM ODM V8.7 for z/OS.

Seminar Description

IBM ODM for z/OS helps organizations address decision-automation challenges by enabling organizations to build highly flexible, adaptable solutions that can detect and react to threats and opportunities and quickly adapt to changing business conditions.

This event brings an ODM for z/OS expert into your environment and introduces your developers and z/OS support team to ODM on z/OS. The sessions are intended to be highly interactive, and while it starts from our presentation material, we are happy to discuss your environment and application requirements.

Audience

The developers who will be developing and deploying ODM rules to CICS, IMS and/or MVS batch on z/OS and the z/OS system programmers and administrators who will be supporting them.

Duration: 6-8 Hours

Topics covered:

- Introduction to Business Rules and Events
- ODM on z/OS Technical Overview
- ODM on z/OS Rule Development and Deployment
- ODM on z/OS Installation and Customization
- ODM in WebSphere Liberty Profile Installation and Customization

Optional
- ODM on z/OS Security
- ODM in WebSphere Liberty Profile Security
- ODM on z/OS and WOLA
- Introduction to Decision Server Events
