

# Out with the old. In with the affordable.

**IBM System x® Express Servers and Storage™ can help take cost out of your business.**

Faced with IT budget reductions, you are likely being asked to do more with fewer resources. You need solutions that deliver business benefits faster than ever, and you need them to be a direct catalyst for growth and differentiation.

**Here are two of these solutions - limited-time Express offers tailored for small and medium sized businesses like yours.**

This new generation IBM System x3650M2 comes bundled with an IBM System Storage DS3300 Single Controller.

The server includes an additional processor, four hard disk drives and an iSCSI adapter. The storage device includes four hard disk drives.

**\$14,572 - a 36% discount!**

\$381 per month/36 month lease

This IBM System Storage DS3400 Dual Controller bundle includes eight hard disk drives, an FC adapter, plus optical transceivers and cables.

**\$12,041 - a 47% discount!**

\$308 per month/36 month lease

Start building advanced IT solutions – **affordably** – and realize the business benefits faster than ever before.

Find out how you can get **UP TO 47% OFF** on IBM System x Server and Storage solutions.
