

Accelerator! Services for IBM CloudBurst

An implementation and skills transfer service designed to assist in the adoption of the IBM CloudBurst solution.

Features

- Physically and logically connects the IBM® BladeCenter® and the management server to the customer's network.
- Integrates the management server into the customer's existing Active Directory environment.
- Installs and configures IBM Systems Director Active Energy Manager™ on the IBM CloudBurst™ management server.
- Provides an eight hour skills transfer session on the hardware and software of the IBM CloudBurst solution.

Typical Benefits

- Leverage and exploit the cost savings benefits of IBM RapidFlash! for BladeCenter.
- Provides accelerated deployment of a CloudBurst solution
- Delivers deep skills to assist in remediating the risk of a key infrastructure project.
- Provides skills transfer to existing staff to enable client's ability to manage the environment after the engagement.

Why IBM®?

- **Deep skills in CloudBurst operations and planning.**
- **Deep skills in IT and BladeCenter management servers**
- **Insight into industry trends and opportunities**
