On-Line WebBriefings

from the IBM RTP Executive Briefing Center

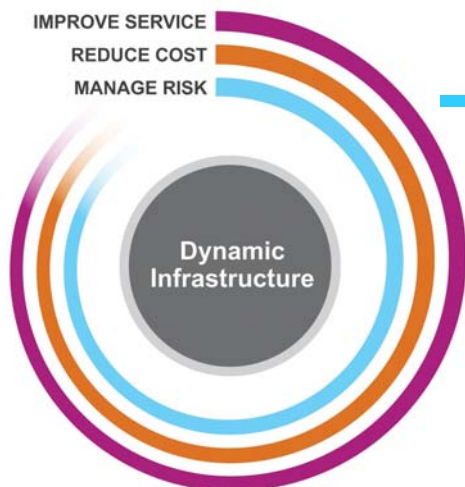

On-line conferencing technology provides an easy and effective way to organize and attend on-line executive briefing presentations and demonstrations.

A typical WebBriefing might include 1 or 2 topics with a duration of no more than 60 – 90 minutes. Topics can be standardized or customized (preparation required); or augment your own local briefing event with a key presentation or demo of a hot technology.

Choose from the following topics or any subject matter within one of these topics for your WebBriefing given by the presenters of the RTP EBC.

- Dynamic Infrastructure
- Information Infrastructure
- IBM BladeCenter
- IBM System x
- IBM Systems Director
- IBM System Storage

How to schedule a WebBriefing:

Customers please contact your IBM Rep or IBM Business Partner
IBM Business Partners and IBM Reps should send an email to
webtrp@us.ibm.com or [Web Briefing/Raleigh/IBM](#) (Lotus Notes).
Please specify company name(s), topic(s) requested, preferred date and
time, and names/titles of all attendees.
Your email will be acknowledged within 24 hrs.

Participants will require (a) Internet Access and
(b) phone line for these WebBriefings.
