

# zSecure Component Installation and Basic Customization

*Expertise to assist with gaining benefits from IBM Tivoli zSecure modules that support security initiatives and audit compliance verification*

## Features

- This service provides installation and customization of:
  - **IBM® Tivoli® zSecure Admin**  
Enables efficient and effective RACF® administration, using significantly less resources, for both live and offline databases.
  - **IBM Tivoli zSecure Audit**  
Compliance and audit solution that automatically analyzes and reports on security events and detects security exposures for z/OS® systems with CA-ACF2 or CA-Top Secret Security (CA-TSS)
  - **IBM Tivoli zSecure Manager for RACF z/VM**  
Allows your clients to perform mainframe administration and audit functions for RACF in the z/VM® environment quickly.
- Enables the client to generate accurate audit reports, i.e. SOX and PCi audits.
- Enables the client to monitor mainframe events and incidents.
- Education and training on product usage is included

## Typical Benefits

- Reduce implementation and configuration time
- Develop client staff skills
- After install and customization the client is able to:
  - Enforce security policy compliance
  - Generate accurate audit reports, i.e. SOX and PCI audits.
  - Enable compliance initiative oriented reporting.
  - Reduce security vulnerabilities.
  - Reduce the cost and complexity of security administration.
  - Enable decentralization of RACF administration.

### Why IBM?

- **Deep skills in IBM System z**
- **Deep skills in and z/OS and z/VM**
- **Insight into industry trends and opportunities**
- **Leadership on the critical issues surrounding security policy compliance for the mainframe**
