

# AIXSC

Advanced Integrated xSeries Solutions Center for iSeries

**Need help deploying, configuring, and developing your integrated xSeries (IXS/IXA) solution? Educating your technical team? The AIXSC for iSeries can help!**

## Education

### Integrated xSeries Solutions on IBM eServer i5 (Course Code AS300)

Gain the skills needed to install, configure, manage and support Microsoft Windows Server on the IBM Integrated xSeries Server for iSeries and xSeries servers attached to the iSeries server via the IBM Integrated xSeries Adapter for iSeries. Learn the concepts, terminology and hardware that is related to the iSeries Integrated Windows environment. Through lecture topics and hands-on exercises, explore installation requirements and procedures, TCP/IP communication configuration including Gigabit Virtual LAN, storage space and combined user id administration, device sharing, backup and restore procedures, problem determination techniques and look at high availability options. For additional information or to view schedules and enroll, go to the following url: <http://www-3.ibm.com/servlet/com.ibm.ls.lsow.servlets.CourseDescriptionServlet?coursecode=S6225>

## Service

### Integrated xSeries Server QuickStart

This services offering will get your company's integrated Windows environment up and running quickly. The engagement will be 1½ days at a fixed price of \$2500. You will be able to choose 12 hours of material from an ala carte menu of choices. Some example choices will be Installing Windows Server, High Availability options, Planning and Allocating storage to Windows servers, Strategic Planning of your integrated Windows environment or Backup and Recovery options. You will get the expertise you need to have a successful implementation. For additional information or to schedule this service, send an email with your request to the following address:
