

## IBM AIX Migration Services Jumpstart

### Smoothing the transition

---

#### Offering Highlights

---

**IBM Systems and Technology Group (STG) Lab Services can provide services to help you efficiently migrate to the IBM AIX® operating system (OS) on the IBM System p™ virtual server environment. We can review your planned implementation, current environment, and assist you to determine an efficient method of migrating to your System p environment.**

**The key benefits of this jumpstart may include:**

- **Optimized performance**
- **Skill transfer to your IT staff**
- **Mitigation of risk by leveraging experienced consultants and proven best practices**
- **Reduced total cost of ownership**
- **Simplification of IT infrastructure management**

#### IBM AIX Migration Services

Migrating to AIX from another environment likely involves a number of unknowns and complex issues. This jumpstart can assist you in planning, implementing, and testing this migration by providing you with on-site help from AIX experts. Our experts can also help train your staff in the principles of AIX administration.

#### Consultation

A consultation with an STG Lab Services specialist includes:

- *An AIX migration planning session where:*
  - *LPAR design and resources are reviewed*
  - *Network Installation Management (NIM) installation server requirements are reviewed*
  - *Implementation in coordination with customer schedule is planned.*
- *Migration of the LPARs is performed, which may include:*
  - *Preparing the Network Installation Management (NIM) server*
  - *Upgrading LPARs to a supported level of AIX*
  - *Creation and installation of additional LPARs, including partitioning the hardware,*
  - *NIM environment update and installation of AIX*

- *Verification that AIX functions properly on the specified LPARs*
- *Creation of a system image backup of the specified LPARs*
- *Designated personnel being provided basic AIX migration training*
- *Provision of documentation describing the System p environment being implemented*
