TechU

Architecting the Future - 14-15 May, 2018

NEW 2-day track at the IBM Z TechU

Attend sessions for innovative solutions, advanced architectures, modern data platforms and infrastructure for cognitive computing with IBM Z and Storage. Sessions are developed specifically for CTO's, Chief Architects and Innovation Managers. Sessions will be presented by IBM Distinguished Engineers - from Europe and from global development organizations, supported by IBM Systems Hardware executives and IBM Fellows for research.

Important: This track can be attended as part of the IBM Z TechU but can also be attended as a standalone training.

What you'll find at an IBM TechU

- **Sharpen your expertise** with 100s of sessions led by IBM Distinguished Engineers and product experts...the A-team of the IBM Systems community
- **Experience the latest technology** via demos geared to all skill levels
- **Test-drive new products** from IBM and IBM Business Partners in the Solution Center
- **Expand your professional network** when you connect with product developers and industry leaders
- **Learn from your peers** via networking sessions and discussions on real-world IT challenges and successes

Who should attend the overall conference?

This conference is intended for IBM clients, IBM Business Partners and IBM employees :

- System Z and Storage
 - Engineers
 - Architects
 - Administrators
 - Specialists
- Systems Programmers (CICS, DB2, IMS, MQ)
- Network Administrators
- CTO's, Chief Architects, Innovation Managers
- IBM Business Partners
- Other IT Professionals

Who should attend Architecting the Future track?

This track was developed specifically for:

- CTO's
- Chief Architects
- Innovation Managers
