IMS Technical Symposium
Part of the IBM Z Technical University

We are excited to announce the 2019 IMS Technical Symposium!

Join us in Berlin, Germany to build your IMS expertise, renew your technical and professional relationships, and participate in the only full-week educational opportunity for IMS.

By joining the IBM Z Technical University, the IMS Technical Symposium gives you access to additional topics, labs, and sessions relevant to your job requirements and experience. This includes sessions on IBM z14 hardware, storage, the z/OS operating system, and middleware solutions such as z/OS Connect Enterprise Edition, CICS, Db2, Tools, and much more.

Exclusive track within the IBM Z Technical University
May 20 - 24
Berlin, Germany

In the digital transformation era, understanding and mastering how IMS applications and data support new business requirements is key.
