IBM Cloud Open Source Support (OSS) – Supported Products List – United States & Canada

IBM Support Line for Docker OSS on Power Systems

Docker Compose	Docker Machine	Docker Swarm
Docker Engine	Docker Registry	Etcd

L3 Roguewave – Operating Systems

CentOS

L3 Roguewave – Database

MariaDB	MySQL
MongoDB	PostgreSQL

L3 Roguewave – Container

Docker Engine	Docker Registry	Docker Swarm

L3 Roguewave – Deployment Management & Monitoring

Chef 12 (Community version)

L3 Roguewave – Application Servers

Apache HttpServer™	Apache Tomcat®	Jboss/Wildfly

Support for the following Open Source Software is available via Special Bid. Contact your IBM sales representative or business partner for details.

Special Bid

Analytics	Apache Commons	Drupal
Apache Maven	Apache Jackrabbit	GlassFish
Apache Spark	Apache XML Commons	HAProxy
Elasticsearch (ELK)	Apache XmlSchema	Hibernate
FluentD	Artifactory	Joomla!
Grafana	HashiCorp Consul	lighttpd
Graylog	HashiCorp Terraform	NGNIX
Jenkins	HashiCorp Vault	Postfix
Kafka	Hibernate Annotations	Spring
Kibana (ELK)	Hibernate Core	SugarCRM
Logstash (ELK)	Hibernate EntityManager	vsftpd
Apigility	LDAP Java SDK	WordPress
Hadoop	NetBeans	Zookeeper
	OpenJPA	Alfesco
Application Runtime	Perl Compatible Regular	Apache Geronimo
Apache Ant	Expressions (PCRE)	Apache TomEE
Gawk	Perl DBD::Oracle module	Drools Guvnor
Java	Sonatype Nexus	Jetty
Node.js	Xerces	mod_jk
OpenJDK		mod_perl
Perl	**Application Servers**	mod_python
PHP	Apache ServiceMix	mod_xml2enc
Python	Apache Solr	Spring Batch
R	Celiometer	Spring Framework
Ant-contrib	DHCP (ISC DHCP)	Spring LDAP

Spring Security
Spring Web Flow (spring-projects)
Spring Web Services
Container
Atomic OS
Kubernetes
Helm
ISTIO

Database
Apache Cassandra
Apache CouchDB
Apache Derby
Couchbase
Galera
Redis

Deployment & Monitoring
Ansible

SoapUI

Support Policy

Open Source Software packages are supported (where available) on x86_64, IBM Power Systems, and IBM z System architectures except for CentOS, which is supported on x86_64 and IBM Power Systems only. Open Source Software packages are currently supported on Red Hat®, SUSE®, Ubuntu®, CentOS Linux®, AIX® and IBM i® (support on AIX and IBM i is dependent on availability of ported distribution from relevant community. Some restrictions may apply). For packages having both community and commercial versions, support is offered for the community version unless otherwise specified.
