

GitHub Enterprise on IBM Cloud

Except as noted below, the terms of the IBM Cloud Service Description apply.

1. Cloud Service Description

GitHub Enterprise is a dedicated service on IBM Cloud. By working with IBM Cloud, developers can learn, code, and work with GitHub's collaborative development tools in a private environment.

2. Content and Data Protection

The Data Sheet may only be available in English and not available in local language. Despite any practices of local law or custom, the parties agree that they understand English and it is an appropriate language regarding acquisition and use of the Cloud Services. The Data Sheet applicable for this service and the terms of this section provides the details and terms, including Client responsibilities, around use of this service. The following Data Sheet(s) apply to this service.

3. Entitlement and Billing Information

3.1 Charge Metrics

The following charge metric(s) apply to this service:

Authorized User – An Authorized User is a unique person given access to the Cloud Service in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means. Client will be charged for each Authorized User given access to the Cloud Service during the billing period.
