

WebSphere Application Server for z/OS Guide to Additional WAS z/OS Technical Information

Introduction

WebSphere Application Server for z/OS is a sophisticated application runtime platform, and as such there are many potential technical details that can be discussed. This document provides a guide to some of the more frequently accessed technical material by major topic category.

This document is a companion to "Guide to Key WAS z/OS Documentation and Presentations" under WP102205 at ibm.com/support/techdocs.
