### **Oracle Database 19c available running Linux on IBM LinuxONE and Z servers!**

This Flash describes the availability of the on-premises Oracle® Database Release 19c running Linux® on IBM® LinuxONE™ and Z® servers.

On June 6, 2019, Oracle made available for download of its most current on-premises Database version, 19c. Oracle Database 19c is available running Red Hat® Enterprise Linux versions 7 and SUSE® Linux Enterprise Server Version 12 on IBM LinuxONE and Z servers. This announcement underscores Oracle's continuing commitment to deliver new versions of Oracle Database running Linux on IBM LinuxONE and Z servers.

Oracle Database 19c (19.3) Enterprise Edition is immediately available for customers to download from Oracle's website at: <https://www.oracle.com/technetwork/database/enterprise-edition/downloads/oracle19c-linux-zseries64-193000-5539116.html>

The table below summarizes the availability of Oracle Database 19c (19.3) running Linux for these platforms.

Operating System	Version	Service Level
Red Hat Enterprise Linux	7	4
SUSE Linux Enterprise Server	12	2
